

WEIGHING SOFTWARE

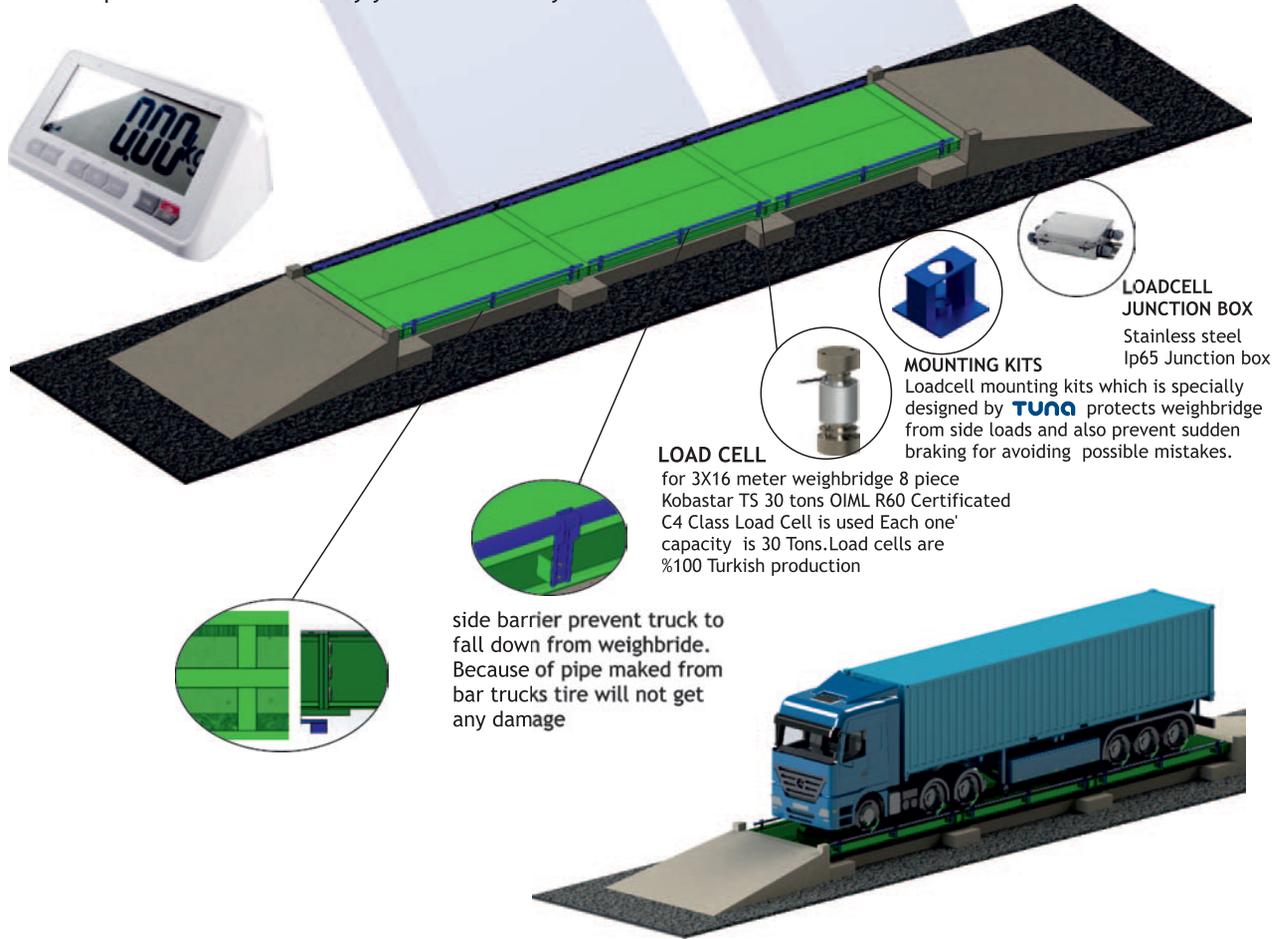

windows based weighing software is very simple and easy to use
Advanced reporting and capable of sending data in xml,excel,pdf,html,txt formats

WEIGHING INDICATOR

OIML R76:2006 Type Approval Pending
Crystal Vision Wide Angle LCD Display with LED Backlight
Flexible Indicator Mounting Design
High Speed 24 bits Multiplexed Delta-Sigma A/D Converters

WEIGHBRIDGE

With experienced engineer staff's dynamic and static analysis Our company proofs the quality of our design and weighbride and also we serve our products to market with 5 years manufacturer warranty.IPE Steel section which is used in platform can work many years without any deformation

LOADCELL JUNCTION BOX
Stainless steel
Ip65 Junction box

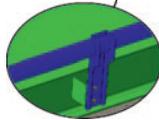

MOUNTING KITS

Loadcell mounting kits which is specially designed by **TUNA** protects weighbridge from side loads and also prevent sudden braking for avoiding possible mistakes.

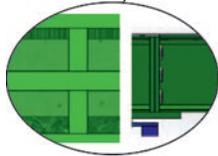

LOAD CELL

for 3X16 meter weighbridge 8 piece Kobastar TS 30 tons OIML R60 Certificated C4 Class Load Cell is used Each one' capacity is 30 Tons.Load cells are %100 Turkish production

side barrier prevent truck to fall down from weighbride. Because of pipe maked from bar trucks tire will not get any damage

MODEL: TS4 / Taşıt Kantarları

MODEL	EBAT (m.)	LOADCELL (PIECE)	KAPASİTE (TON)	TAKSİMAT (Kg.)
